For Immediate Release

DCAM CONTRACTORS WORKSHOP FOR GENERAL/PRIME CONTRACTORS AND FILED SUB-BIDDERS

In an effort to provide training and outreach to the Martha's Vineyard construction contracting community, the Division of Capital Asset Management (DCAM), in conjunction with the Town of Chilmark, will be hosting a Contractor Certification Workshop/Seminar on **Thursday, August 27, 2009** from 7-8:30 p.m. at the Chilmark Town Hall, 401 Middle Road, Chilmark, MA.

Contractors who are interested in bidding public building work as General Contractors or Filed Sub-Bidders are encouraged to attend the session to learn about the Contractor Certification Application process. The program will be conducted by Natasha Bizanos, Contractor Certification Manager at DCAM. Attendees should pre-register by email with Tim Carroll (tc Carroll@ci.chilmark.ma.us) or 508-645-2101.

Certification is required by state law. Chilmark plans to be putting out to bid the construction of 3 duplex affordable housing units with a total value of \$1,500,000 in November 2009. Chilmark is eager to have local contractors eligible to submit bids, and filed sub-bids, for this project. Certification would allow you to bid on other municipal and state jobs.

Please note that this workshop is for building contractors and filed sub-bidders only, not suppliers, manufacturers, or other service providers.

To review contractor certification application requirements prior to the program, please go to www.mass.gov/dcam and click under "Contractor Certification" on the Related Links menu.
