To Whom this may concern,

I Todd A. Mayhew would like the opportunity to grow mussels on the drop line method. 5 acres with a total of 3 lines or 3 acres with a total of 2 lines. To be raised off the north shore of Martha's Vineyard.

In the area of Noman's Land Island, being that it is a more offshore location I would ask for 3 acres with a total of 1 to 2 line in it, to access the locations viability for future use, be it economical or in the health of the Mussels.

Thank you for your consideration.

Todd A Mayhew 10-01-2010
