RE: 20,000 Gallon FRP Storage Tank
MLR Fire Protection UST

Dear Mr. Carroll:

In response to our most recent conversation and pursuant to our bid submitted on October 13, 2010 for the above referenced procurement, please accept this document as our formal contract to supply the Town of Chilmark with the water storage tank per specifications.

MECO Environmental Services will supply the following:

- 1) Containment Solutions CSI – 20K10 – SW single wall fiberglass water storage tank 10' diameter x 37'4" long. Tank to included 1 - 22" manway, 3 - 6" full couplings, 6 - C/S hold down straps, 12 - C/S galvanized turnbuckles for 10' diameter tank, and delivery to Chilmark, MA.
- 2) Containment Solutions non potable water tank warranty has been extended to Five Years.
- 3) Unloading by Others.

OUR PRICE FOR THE ABOVE MATERIALS: \$ 31,495.00

Options:

- 1) Additional for 100 ml interior liner \$ 6,700.00
- 2) 48" x 42" Unattached FRP Manway Riser \$ 1,200.00
- 3) Concrete Dead Man Anchors for Ballast \$4,600.00 FOB Chilmark

Thank you for allowing MECO Environmental Services, Inc. the opportunity to supply these materials to the Town of Chilmark. MECO is in full compliance with the MA Dept. of Revenue, our Federal ID # 04 – 2931005. Should you require additional information or need further assistance, please feel free to contact us at anytime. MA Sales Taxes are not included in the above quotation.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Gregory Murphy", is written over the word "Sincerely,".

FLOWTITE® WATER TANKS

Building On A Tradition

Containment Solutions, formerly the special products division of Owens Corning, pioneered a technology in 1965 to manufacture the first fiberglass petroleum storage tank.

Originally our tanks were designed for the safe storage of petroleum and other combustible materials. In fact, our design work resulted in the UL 1316 standard which governs fiberglass tank manufacturing for petroleum tanks. More than 40 years and 300,000 tank installations later, we continue to improve upon those processes utilizing today's automation to develop new applications and products.

We applied the same manufacturing expertise and ambition to the water industry when we introduced the Flowtite® line of water storage tanks. Flowtite tanks are designed to meet AWWA D120, NFPA 22, NSF 61 and IAPMO standards for water/wastewater storage tanks.

Non-corrosive fiberglass tanks from CSI are lightweight and watertight making them the perfect vessel for any water application. Flowtite tanks are manufactured at multiple locations to serve North America.

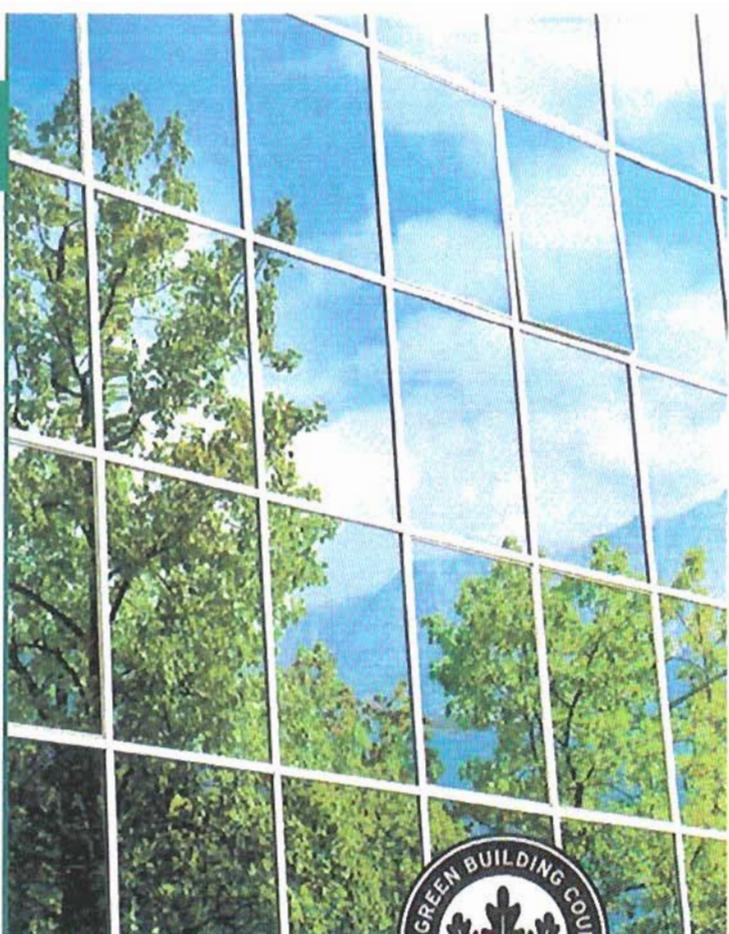

Containment Solutions Full Product Line

In addition to the water tank line of products, Containment Solutions offers oil/water separators, manholes and wetwells which can be combined with Flowtite tanks to create a complete water management system. Many of our customers use a combination of tanks in creative ways to meet ever changing needs. CSI offers custom manufacturing for complex projects as well as a full line of accessories to complement our industry leading quality vessels.

CSI is committed to providing environmentally conscious designs and products. As a member of the U.S. Green Building Council, we promote proper fluid management and sustainable site development.

Tank ribs are constructed on a rotating steel mold during the automated manufacturing process. Our precision technology results in a more consistent tank thickness and composition than competitive products.

Flowtite® Tanks Impact on Green Building

Water management is a significant component of the LEED® program. Underground fiberglass water storage tanks can apply to several LEED categories.

Flowtite fiberglass storage tanks, from Containment Solutions, contribute to satisfying multiple credits of the LEED Green Building Rating System.

Flowtite tanks can store wastewater, graywater, rainwater, stormwater, even potable drinking water. Tanks can be fit with filtering components to separate oil and other contaminants so the water collected can be reused for landscaping and other applications.

With efficient water management strategies in place, your green building decisions will quickly pay for themselves.

FIRE PROTECTION

Lightweight Flowtite tanks can be custom built for any fire protection system design. We understand the requirements of fire protection systems, and manufacture our tanks to National Fire Protection Association (NFPA) specifications.

By providing a dedicated source of water required by local codes in residential development, CSI fiberglass tanks are a preferred way to have access to large volumes of water. The tanks provide unseen protection for the residents, yet are easily accessible for fire and municipal vehicles.

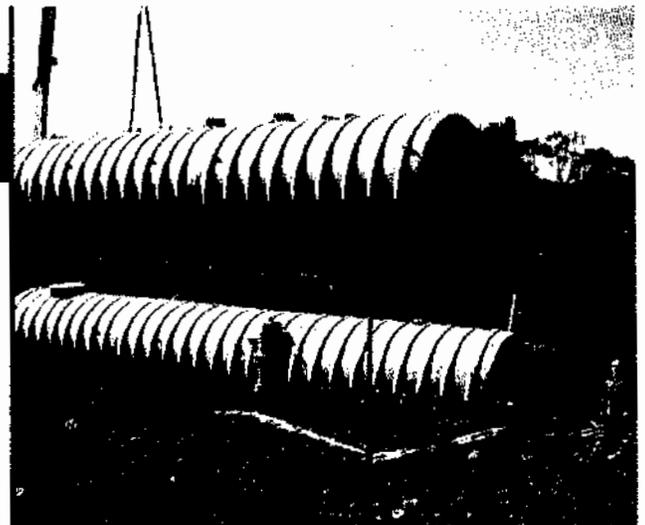

Flowtite tanks are often used for commercial fire protection due to the inherent water tight properties of fiberglass and the large volume capacities.

The benefit of having concealed underground emergency water storage will help protect property values and thus protect your business investment.

Typical Applications

- Dry hydrant tanks
- Surge tanks for fire sprinkler systems
- Horizontal suction pump tanks
- Vertical suction pump tanks

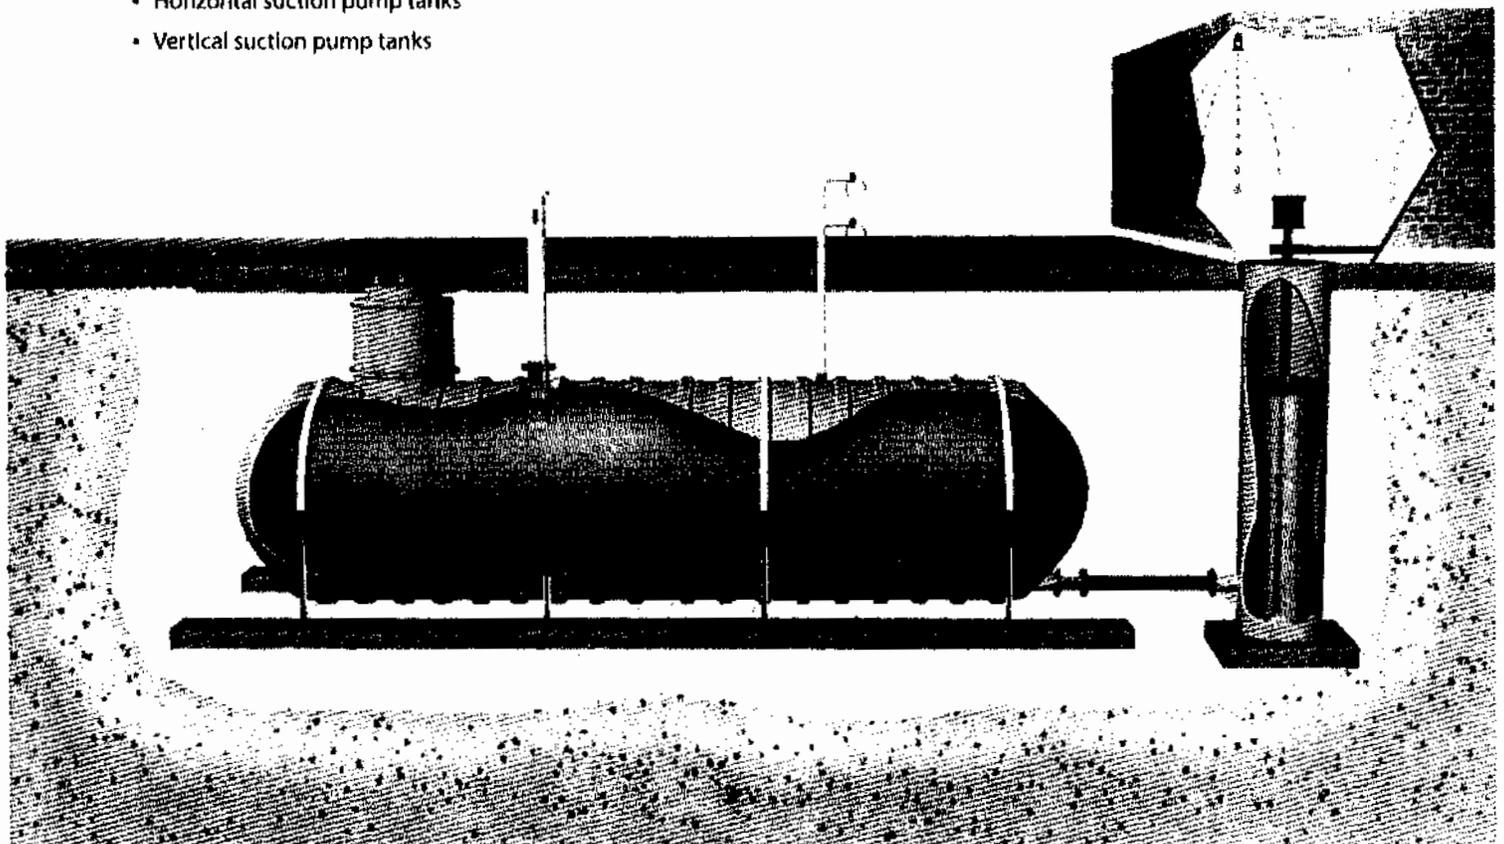

Beaumont, Missouri

Large volume underground tanks can store enough water to suppress a potentially devastating fire before emergency vehicles arrive.

Standard systems often use either a fiberglass bottom sump or a vertical pump vault to direct the water to the discharging equipment.

Piping connects to a fenced reservoir, the Flowtite tank to facilitate the transfer of water to the fire protection system.

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type
 See Specific Instructions on page 2.

Name (as shown on your income tax return) MECO Environmental Services, Inc.	
Business name, if different from above	
Check appropriate box: <input type="checkbox"/> Individual/Sole proprietor <input checked="" type="checkbox"/> Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Other	
<input type="checkbox"/> Exempt from backup withholding	
Address (number, street, and apt. or suite no.) MECO Environmental Services, Inc. 1119 Washington Street Weymouth MA 02189	
Requester's name and address (optional)	
City, state, and ZIP code	
List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Social security number

or

Employer identification number
04-2931-005

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. person (including a U.S. resident alien).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. (See the instructions on page 4.)

Sign Here	Signature of U.S. person	Date 07/20/2010
------------------	--------------------------	------------------------

Purpose of Form

A person who is required to file an information return with the IRS, must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

U.S. person. Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee.

In 3 above, if applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

For federal tax purposes, you are considered a person if you are:

- An individual who is a citizen or resident of the United States,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States, or
- Any estate (other than a foreign estate) or trust. See Regulations sections 301.7701-6(a) and 7(a) for additional information.

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity.

Paul Diodati, Director
Div Marine Fisheries
251 Causeway Street, Suite 400
Boston, MA 02114

Dear Director Diodati:

The town of Chilmark would like to request that when the Division of Marine Fisheries is here next week surveying the proposed Aquaculture license site of John Armstrong in Menemsha Pond, approved in a August 2, 2010 meeting, that DMF also conduct a survey of two new 100x 600 foot shellfish aquaculture applications. Due to time of year and logistics of scheduling DMF divers, The Board, for the sake of efficiency is requesting 2 additional biological surveys.

We are in possession of two applications for the next two sites. The Board of Selectmen have reasonable expectations that these two 100 foot by 600 foot sites will be awarded to Stephen Broderick & Tim Broderick at the December 7th 2010 Selectmen's meeting following a public hearing.

Sincerely,

Timothy R. Carroll
Executive Secretary
