

**BEETLEBUNG
TREE CARE**

www.beetlebungtreecare.com

November 14, 2011

Town of Chilmark
PO Box 119
Chilmark, MA 02535

Dear Pasture Road Association Member,

In an effort to limit confusion, Robert Merry has asked that Beetlebung Tree Care take over administration of billing for Pasture Road Association for work that Beetlebung Tree Care performs for the Association. There are currently unpaid bills that are owed from six separate invoices for the year of 2011. I have enclosed invoices for the Town of Chilmark portion of those bills.

In addition, there are two estimates:

1. Roadside Mowing and cut back
2. Drainage Culverts and Swales clean out

As agreed on by the association, the Martha's Vineyard Land Bank pays 1/3 of the bills, the Town of Chilmark pays 1/3 of the bills and the homeowners pay the remaining 1/3 of the bills. Please submit your payment directly to Beetlebung Tree Care at the address listed below.

If you have any questions, please feel free to contact me at daryl@beetlebungtreecare.com

thank you,

Daryl Owens

| Project |
|----------------------------|
| Road Repair after Flooding |

| Item | Description | Qty/Hrs | Rate | Amount |
|--------------------|---|---------|--------------|-----------------|
| | <ul style="list-style-type: none"> • 4/22/11 - 4/25/11 - ROAD REPAIR AFTER HEAVY RAINS OF 4/13/11 WASHED OUT SECTIONS OF ROAD. • Picked up and deliver 30 Tons of Hardener/Gravel Road Mix. Spread and graded material into washed out areas to west of town field. Build speed bump before this area to divert and slow down water so this area will not wash out again. Fill in and grade out several other washed out/pot holed areas along Pasture Road. Grade and slightly crown remainder of road where necessary. Compact worked areas and rake excess material back into road. • Work drainage ditches alongside pasture road with small excavator and small loader to dig out ditches so water remains in ditches and does not come back onto road. Dig out ends of several drainage culverts that are buried to expose so firetruck or other apparatus can easily blow out clogged drainage culverts. Load excess washed out material into dump truck and dump offsite or dump and grade over side of steep hill to north of pasture road across from town field to build up side of hill. Raked out worked areas. Spread seed over worked areas and raked in seed | | | |
