Dear Marina:

Perhaps my February 22nd faxed reply to your question did not reach you or did not sufficiently answer your question about what Menemsha Market is going to sell this 2012 season.

The plan is to have packaged, non-perishable groceries; refrigerated packaged products; produce; frozen packaged products; newspapers; gifts, books, toys, etc.

There will be a coffee/tea counter close to the sink area.

No food preparation or consumption will take place in the market.

I hope this answers your question and, if not, please let me know.

Tisbury, MA 02568

Hi Dorothy - Yes, I must have missed your Feb 22nd reply. Thank you very much for responding so quickly. Because this will be

a food establishment, and under new management, the new manager should meet with the Board of Selectmen to introduce the plans for the establishment, as well as the Board of Health, to conduct a plan review of the establishment. Please have Deborah Packer contact me to determine what is required for a plan review.
