Re: herbicide use

Dear Mr. Parker,

It has come to my attention that you have applied for an eradication program utilizing the herbicide glyphosate. This would be a violation of the Chilmark zoning by-law Section 12.6.H.1 The use of chemical fertilizers, herbicides, fungicides, and pesticides is prohibited. You are ordered to cease and desist from proceeding until this matter is resolved. Please contact my office in hopes of identifying a solution that would satisfy our mutual concern for the health of Squibnocket Pond.

The penalty for zoning violations is fifty dollars a day per day, per violation. You have a right to an appeal.

Very truly yours

Leonard Jason, Jr.
Inspector of Buildings
