Re: Mosquito Testing in Chilmark, Summer 2013

At its meeting on Wednesday, June 5, 2013, the Board of Health discussed the issue of testing mosquitoes for the presence of West Nile Virus and/or Eastern Equine Encephalitis.

We would like to see mosquito testing done in Chilmark during the 2013 summer season, and are discussing testing arrangements with the County through the Island Health Agents' Coalition.

Thank you for your consideration of this important matter.

Sincerely yours,

*Katherine Carroll*
