Subject: Fiber Project Revision
Attachments: Tim Media Converter Sheet.pdf; Tim Switch Data Sheet.pdf

Tim:
Any questions?

Tim:
Following is a revised scope of work for the fiber optic plant in Chilmark and Aquinnah. The amended location list includes the five (5) locations that we discussed on Tuesday. In response to your concerns about traffic capacity, the media converters have been changed to full GigE at all locations.

Total Cost: \$16,364

Scope Of Work Includes:

All labor and materials to accomplish the following:

1. Fiber optic to copper managed media converters (see attached information) at: Aquinnah Town Hall, Chilmark Town Hall, Chilmark Community Center, North Road Fire Station and Menemsha dock. The media converters will be single strand GigE, managed units.
2. All necessary jumpers to connect existing fiber optic backbone to bring the locations mentioned above to fully functional state.
3. One (1) 8/12 port fiber/copper managed full GigE switch (see attached information) with 4 transceivers installed to be placed at the Chilmark Town Hall.
4. Includes all labor necessary to bring the fiber network up to a fully functional state at the locations listed above and ready to pass traffic.
5. Documentation.

Does Not Include:

1. Any locks necessary to secure the fiber splice boxes at the various locations.
2. Any interior or exterior construction such as the installation of power circuits, conduits, racks, shelves or other site specific building requirements as may be necessary.
3. POE capability at any location.
4. Integration of the fiber network with current Chilmark or Aquinnah networks.

PLEASE NOTE:

The fiber connectivity can be accomplished within 30 days of the acceptance of invoice (you could have it working for the summer traffic). Additional services are available up to and including turnkey installation of all aspects of this proposed network. Any item not specifically included above is available for an additional fee.

If the above is acceptable to you, please acknowledge as soon as possible and an invoice will be forthcoming.
