Chilmark Board of Selectmen
c/o Tim Carroll

Dear Selectmen and Tim,

Although it is only mid-February and there may be more weather to come, I'm writing to express my gratitude to the town's emergency management team, road crews and most especially Rodney Bunker for their diligence and assistance during this most trying winter. The road crews have kept our parking lot plowed and sanded and Rodney has kept the building safe and secure for our staff, patrons and taxpayers.

Rodney has kept our walkways clear, sometimes shoveling multiple times throughout the day. After doing preparatory HVAC maintenance checks before the heating season began, he has kept a careful watch to make sure the furnace stays on. He does a building check every morning to make sure things are running smoothly. He responded to an equipment failure and had a repair crew here before we even noticed anything was awry. As I write this he is up on a ladder in lightly falling snow shoveling the flat part of the library roof, preparing for the next onslaught of bad weather. The list goes on.

His dedication is exceptional and his proactive approach is a money saver – he takes care of small problems before they become expensive disasters. I consider myself immensely fortunate to have him as a partner in providing library services to the town.

Most appreciatively,

Ebba Hierta
Library Director

CC Rodney Bunker
