Re: Renovation of the Menemsha Comfort Station: Septic System Considerations

At its meeting on December 2, 2015, the Board of Health took note of discussions regarding the proposed renovation of the Menemsha Comfort Station. The Board would like to emphasize that the site serving the comfort station is environmentally fragile and that conditions for onsite sewage disposal are challenging, and the station receives extremely intensive use during the summer months.

Therefore, the Board stresses that any septic system upgrade must result in a system that is very robust, and straightforward to maintain.

Thank you for your consideration,
Sincerely yours,

Katherine L. Carroll
Chairperson, Chilmark Board of Health
