Subject: Public Hearing info - Mayhew Upweller
Date: Monday, March 07, 2016 9:01:09 AM

Town of Chilmark,

I'm writing to apply for an upweller site in Nashaquitsa Pond. The upweller site would be used for growing out seed oysters until they are large enough to be brought out to my lease site on Menemsha pond. The site would be located at the end of my father Jonathan Mayhew's dock down in Nashaquitsa Pond, the address of this land is 11 clam point cove rd, chilmark MA 02535. I've attached a picture of the proposed location for the upweller. It would be located to the right of the dock (between the dock and the visible rock). This would be extremely helping in growing out my oyster seed and simultaneously help to filter and clean the water.

The GPS coordinates for this proposed site are:

North West corner Latitude 41°19'36.94" N Longitude 70°46'13.09" W

North East corner Latitude 41°19'36.83" N Longitude 70°46'12.71" W

South West corner Latitude 41°19'36.78" N Longitude 70°46'13.24" W

South East corner, Latitude 41°19'36.64" N Longitude 70°46'13.83" W
