Dear Recipient:

In accordance with Federal Regulations *18 CFR §5.18*, the Town of Edgartown hereby notifies you of the following activity.

On January 31, 2011, the Town of Edgartown is submitting a Notice of Intent and a Draft License Application along with a request for waivers and a process plan to the Federal Energy Regulatory Commission (FERC) for the Muskeget Pilot Tidal Energy Project, FERC Project No. 13015. The Pilot Project is a 5 MW tidal electricity generator demonstration in Edgartown waters approximately 2 mile southeast of Wasque Point. The application requests an 8-year license to test the operations and monitor the environmental effects of the pilot project. The application can be obtained on-line at www.ferc.gov (search Project No. 13015) or viewed at the Edgartown Planning Office, 70 Main Street, Edgartown, MA or at the Nantucket Planning Office, 2 Fairgrounds Road, Nantucket, MA. FERC will accept written comments for a 45-day period from the application filing. Comments should be directed to the FERC and can be submitted electronically via www.ferc.gov.

Questions about the project can be directed to Stephen Barrett of Harris Miller Miller & Hanson Inc., 77 S. Bedford Street, Burlington, MA 01803, sbarrett@hmmh.com.
