Mr. Timothy Carroll
Town Administrator
P.O Box 119
Chilmark, MA 02535

Dear Mr. Carroll,

Attached for your information and dissemination to your Board of Selectmen/Town Council is the Cape Light Compact's (Compact) quarterly Energy Efficiency Report. The Report reflects the program activity for all of Cape Cod & Martha's Vineyard and breaks out the detail on a town-by-town basis.

Below is a summary of the activity in your town for Q3 (July - September) 2019. To view your monthly reports from 2006 forward, please visit our website at www.capelightcompact.org/reports.

- 22 residents and/or businesses participated* in the program.
- \$22879 in incentive dollars were distributed to the 22 participants.
- -8121 kWh was saved** through implementation of these energy efficiency measures.

If you have any questions on the attached report, please contact me at (508) 375-6636.

Sincerely,

Margaret T. Downey
Administrator

Enclosure

**Please note that the number of participants may not correspond directly to the number of customers in your Town. As required, the Compact reports a customer as a participant for each energy efficiency program in which a customer participates. For example, if a customer has a home energy assessment and submits a dehumidifier rebate, they are counted as "two participants." Additionally, pre-determined lighting assumptions quantify participants dependent upon number of bulbs sold.*

***Also, in the Residential Retail Initiative, several measures may reduce energy use from one fuel source but may increase use of another fuel resulting in negative kWh savings. Strategic electrification for example is primarily focused on the adoption of Heat Pump technology which may reduce the use of oil or propane but increase the use of electricity and increase peak demand. The Program Administrators have determined that these measures are still cost effective, and provide benefits to customers in a more holistic, integrated approach that helps customers address their energy use and associated costs based on their individual needs and goals, while aligning with the broader Commonwealth energy and greenhouse gas emissions reduction goals.*
