josh.nigro@mass.gov

S-130 Objectives

- Explain what the LCES (Lookouts, Communications, Escape Routes, and Safety Zones) system is and how it relates to the Standard Firefighting Orders
- Construct fireline to required standards using various methods
- Strengthen, reinforce, and use holding actions on a fireline
- Extinguish the fire with or without the use of water
- Complete assigned tasks in a safe efficient manner.

S-190 Objectives

- Identify and discuss the fire triangle
- Identify the environmental factors of fuels, weather, and topography that affect the start and spread of wildland fire
- Describe the contributing factors that indicate the potential for increased fire behavior that may compromise safety

L-180 Objectives

- Introduce human performance factors in high-risk work environments and add this knowledge to student's skill set
- Provide opportunities to explore human performance concepts and related vocabulary
- Reinforce professional responsibility to address human performance issues while on the job

All Courses are a blended program with both online and field work. You will need to register for an NFA-National Fire Academy student access or log in to your student access account following the links below.
