The owners request a Special Permit to build a new smaller dwelling on a pre-existing non conforming lot. The existing structure is close to the top of an eroding coastal bank. Because of the continuing erosion, the dwelling will eventually need to be removed. The owners wish to be proactive and have a plan in place to build another dwelling on this site should the existing dwelling be deemed uninhabitable. The new dwelling will be built on pilings and will conform to the 18 foot height requirement.

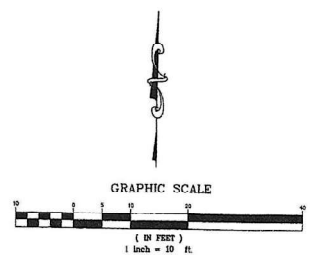

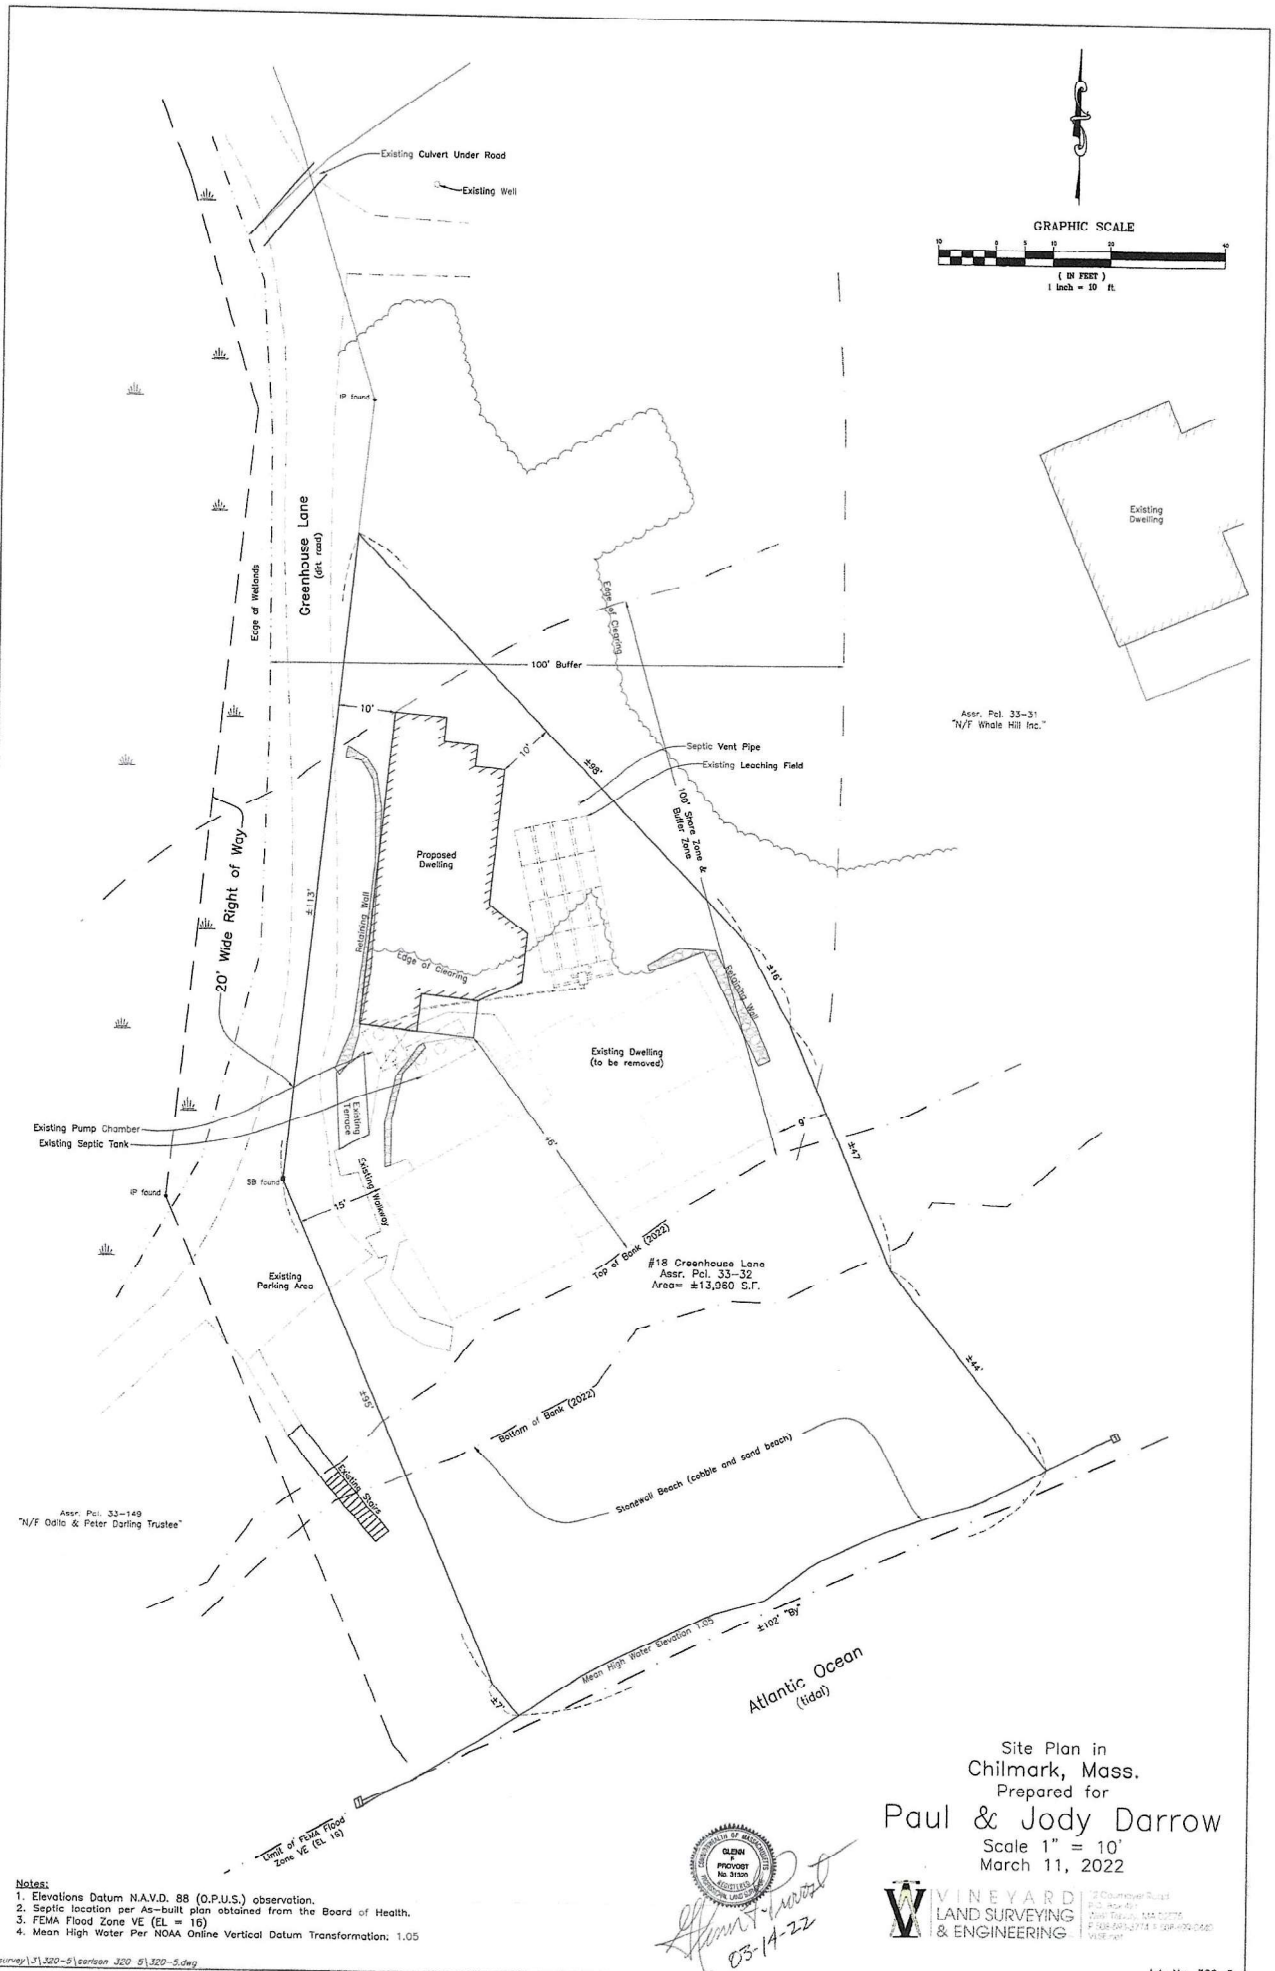

Current vs proposed data is as follows: three bedrooms now, two bedrooms proposed; floor area now is about 2076 sqq. ft., floor area proposed is about 1057 sq. ft.; existing setbacks - front 17 ft. & side is 10 ft., proposed setbacks - front 10 feet & side is 10 ft.
