Subject: Boat House replacement

Re #6 Larsen lane Menemsha.
Hariph Mayhew Smith Cottage trust.
Boathouse

I am sending these items digitally as I am currently in Alaska.
I am generally on Island in the Fall only.

If these will suffice please let me know.

The boat house is 12 ft long
16 ft deep
10 ft high on the Larsen lane side
8 ft high at the back

I propose the same footprint with a peaked roof of 14 ft high instead of the current shed roof which has contributed the the degradation of the building because it does not shed leaves.

I am proposing dark green metal building as it won't burn , won't rot, and will be discreet.

I am not Apposed to shingled walls for architectural consistency with the neighborhood but it will also be more complicated due to proximity of wetlands.

The current boathouse is beyond repair.
