RE: Letter of Support

To the Mass Clean Energy Center:

The Chilmark Board of Selectmen and myself the Town Administrator fully support our Climate Action Committee and Energy Committee's Application for the Mass. Clean Energy Center EOI grant. The Town of Chilmark has been a participant in the MVP process and are eager to move forward in having our community act on our findings during this process.

An Engineering / needs assessment will be an important step for our town at this time as we are moving forward with our project of building a new Public Safety Building in our town center and also our next affordable housing project.

Assistance in funding through awarding this grant to Chilmark would be very important to us during this COVID 19 uncertainty.

Thank you for considering Chilmark for this grant.

Sincerely,

Timothy M Carroll
