Please consider me for a seat on the Conservation Commission should one become vacant. I have sat in on a meeting with the current Commissioners and so am familiar with the typical proceedings. With the latest anti-environmental oversight, I am concerned that local handling of wetland resource issues is more important than ever. My education has included a course on hydrogeology. I have a Bachelor's degree in biology and a Master's degree in Landscape Architecture. My professional career as a landscape designer and contractor has spanned over 50 years here in Chilmark. Sandy Broyard is a neighbor who is able to vouch for me if needed.

Thank you for your consideration.

Sincerely,
