To: Chilmark Select Board

The Harbor Advisory Committee would like to recommend to the select board to consider a traffic study for Menemsha in order to determine how to move forward with the number of visitors Menemsha encounters in the peak season and to determine if there is any way possible to restrict the tour buses/vans from parking in Menemsha during the peak summer months. We would recommend a traffic study before moving forward with plans that would change the visual character of Menemsha. Thank you for your consideration.

Jeffrey Maida - Chairperson

Chilmark Harbor Advisory Committee
