Subject: HAC Recommendation to Select Board

Good morning Jennifer and Tim

On Wednesday April 6, 2022 the Harbor Advisory Committee meet with Harbormaster Ryan Rossi. During that meeting there was discussion of the condition of the South East corner of the commercial dock and the sink holes on the west dock parking area. Based on information provided to the HAC it was voted unanimously to recommend emergency repairs to both areas to the select board. Could you please put this recommendation on the agenda for the April 19, 2022 select board agenda.

Thank you
Jeffrey Maida
Chairman Harbor Advisory Committee
