Dear Chilmark Select Board,

I am writing you in regards to the proposed affordable housing project at Peaked Hill Pastures. I am in total support of anything that helps to maintain an ability for people to live on the Island and work within and contribute to our Island community.

The complexities that are associated with creating affordable housing are far reaching and possess a plethora of emotions. Because of these complexities, I'm wondering if the Select Board would consider creating a special committee that would have the task of creating the RFP for this specific project, and be responsible for reviewing the responses and creating recommendations that could be discussed publicly and with the relevant town boards.

The committee could be made up of a wide variety of towns people ranging from people who need housing to those who have experience in establishing it.

Thank you for creating the situation within which this exciting project can flourish.

Take care,

John Keene
