This Agreement is made effective as of July, First 2022, by and between MVLEC and RDA SoftNet. *(See full legal names under section 14)*

In this Agreement, the party who is agreeing to receive products and services shall be referred to as MVLEC, and the party who will be providing the products and services shall be referred to as "RDA".

RDA has a professional background in computer system management, software development and network services and is willing to provide services to MVLEC based on this background.

MVLEC desires to have services provided by RDA.

Therefore, the parties agree as follows:

**1. SERVICES.** Beginning retroactively on July, First 2022, RDA will provide, but are not limited to, the following technical professional services. (Collectively the "Services")

- Network Services (maintenance and support)
- Software Development (maintenance and support)
- Management Services (coordination of services above with service providers)

These services will be performed under the following budget categories;

- Agency
- QED
- RECC

RDA may provide services beyond the scope of this agreement, these projects or services will be billed according to the rate schedule approved under this agreement. The MVLEC will designate the personnel who can authorize such services and the threshold they are authorized to approve.

**2. SUPPORT** It is our policy to handle support on a first come first serve basis. If there is a conflict in our ability to provide services based on lack of qualified personnel at our location or yours, availability of parts, inclement weather, or other unforeseen acts of God or man RDA will provide support as follows; public safety first; this is based upon the number of affected end users if there are simultaneous issues. Then based on the time our organizations have been partners and your current agreement. This is for emergency situations that require immediate response. Please understand, lack of

planning is not an emergency. We will work at our discretion at the standard rate if our personnel must work after hours to resolve your issue because of scheduling conflicts.

**3. PURCHASES AND ACQUISITIONS.** MVLEC recognizes that they will call on RDA to make recommendations to acquire appropriate hardware, software, services, or personnel from outside sources. RDA can supply personnel, or products necessary to complete the services that are competitive with the current market. If you desire, RDA can recommend vendors that meet your needs for quality and support directly to you, allowing you to have complete control.

Personnel supplied by RDA shall at all times be under the supervision and control of RDA, provided, however, that RDA may delegate from time to time such supervision and control to MVLEC with respect to certain daily activities of the Personnel in conjunction with performance of the services. RDA agrees to cooperate with MVLEC in assigning Personnel to perform the Services who are acceptable to MVLEC and in removing and replacing Personnel when warranted, such decisions, however, to be made by RDA. Such Personnel may be employees of RDA or independent contractors engaged by RDA to perform the Services.

Payment terms will be determined in advance, in most instances service and personnel fees are based on a flat per hour fixed or day rate to be determined. This fee shall be payable according to terms arranged with providing vendor.

***We will make every effort to resolve any hardware/software/integration problems you may encounter while using your computer system. However, RDA cannot be held responsible for products developed outside of RDA's organization, or for products acquired on your behalf that fail to perform to manufactures specifications. Providing RDA showed due diligence for industry acceptable practices, and manufacturer specifications, are/were followed. Therefore, you will be billed for any services provided in regard to such products, be the failure any reason outside of RDA's control. RDA's liability for damages with respect to the services provided shall in no event exceed the charges previously paid by MVLEC to RDA for these products or services.***

**3. (A) LOANED EQUIPMENT.** From time to time RDA SoftNet has and will continue to have equipment in use not owned by and/or maintained by the agencies, and/or onsite for testing and training by the MVLEC or other agencies within the agreement scope.

While this equipment is in use it will be covered for loss or damage by the MVLEC or the agency approving its use. If a piece of equipment is lost or damaged while on the premise of an agency, all repair or replacement costs will be born by that agency or the MVLEC.

While this equipment is in use it will have a cost associated based on one thirty-sixth of its cost plus ten percent for the first year. This is not design to be a leasing program, just a resource to bridge what's needed and the funding coordination amongst the agencies.

If the MVLEC or agency has paid any costs directly related to the equipment, the replacement cost will be reduced by these payments.

Any such equipment setup costs will be charged against the agreement hours for the agency or agencies involved or billed directly at the agency's option.

RDA acknowledges that issues may change in priority or arise that were nonexistent when prioritized prior to RDA's arrival. This list will be used to acquire any products or services required to complete the tasks or resolve issues. RDA must have prioritized approved tasks upon arrival.

**6. COMPUTER MOVES, ADDS, CHANGES APPROVAL.** When users are requesting something moved, added, or changed in regards to the equipment or software, a detailed document is required, it must include exactly what needs to be done, why it is required, where and how it will be used, this information will determine the complexity of the task and budget impact prior to MVLEC's approval of the task.

**7. NEW PROJECT APPROVAL.** RDA and MVLEC recognize that RDA's Services will include working on various projects for MVLEC. RDA shall obtain the approval of MVLEC prior to the commencement of a new project. This agreement covers only existing systems and equipment in place at the time of budgeting.
