RE Request to declare cruiser surplus

Board,

I would like the board to declare our 2015 Ford Expedition (103,000 miles) surplus so we can proceed with the purchase of a replacement cruiser.

I feel that this car has reached the end of its service life at our department and I do not recommend that the town retain it for other purposes.

The police department has received a trade allowance quote for \$2500 towards the 2022 replacement cruiser. With this trade, the net quoted purchase price of the new cruiser is \$51,494.

I suggest the board in addition to declaring the 2015 cruiser surplus, authorize this department to trade it in towards the 2022 model. An alternative disposal suggestion would be the town auction it off.

Thank you,

Jonathan Klarén
