Subject: Road work after the storm
Date: Thursday, October 28, 2021 10:15:31 AM

Nan and I drove up and down Middle Road, North Road, The Crossroad, and into Menemsha at 5PM on Wednesday, the day of the big Noreaster. The roads were in really good shape, no blockage, tree limbs pulled way to the side of the road. We were very impressed and pleased. Our Streets Superintendent did a great job with help from the fire department, police department, and John Keene. Thank you to all for a good job. To have recovered from the storm by 5PM on the same day as the storm was really good work. Warren
