**Subject:** stones at Menemsha, letter to Selectmen and Harbormaster  
**Date:** Wednesday, April 12, 2023 2:32:59 PM

---

Members of the Beach Committee are requesting permission to seasonally remove two rocks on the left side of the bulkhead in Menemsha. This could provide an easy access for the less agile to visit the beach. This would not be a permanent removal, initially they could simply be pushed to one side and put back in the autumn. We understand there will be a machine removing sand from the parking area at this location and could easily accommodate this request.

Tim, could this be added to the next Selectmen's meeting?
