Subject: Retiree Health care invoices

Select Board,

With the help of my assistant the office has been organizing the files tracking retiree health care invoices being issued and posted for their payments.

In July of 2022 it appears no invoices were sent for collection of the retiree's portion of the benefit.

All retirees will be receiving a separate invoice and letter of explanation , along with an itemized printout of all payments/postings of their transactions from July 2021 to current for review.

If you have any questions or concerns regarding these invoice please get in touch with me.
