Subject: House numbers

Good morning all,

On Tuesday night, while responding to a call we had some difficulty finding the house. This was due to a lack of road signs, and house numbers, both at the end of the driveway, and on the house it's self. We did end up finding the house, and everything turned out fine on the call, however it did bring up a good opportunity for us.

I figured that with the recent property sales, that it might be a good idea to send out something to the residents of the three towns saying some thing like "When you have an emergency we want to help, but we need you to have your roads, driveways and houses clearly marked so that we can find you" or something like that.

I figure if it comes from the Select Boards, and is signed by the Police, Fire, and EMS Chiefs, then it might help out.

What are your thoughts? Do you think this is something that could be worked on and done?

Thanks,

Ben Retmier

Tri-Town Ambulance Chief
