Subject: Tuesday BOS - Island engineer
Date: Friday, December 11, 2020 3:59:21 PM

MVC would like to offer Chilmark the opportunity to participate in the island transportation engineer program for FY 22. MVC staff would manage the engineer to provide the engineer with comprehensive resources on town identified projects so as to limit the number of hours needed from the engineering firm. Funds can be used for design work, technical memos, traffic improvement modeling, or graphic design to simulate infrastructure improvements. This is an extension of the Community Compact grant award where the firm proved their versatility and understanding of the local island context in the deliverables they provided. Towns now have the option to engage the resource again through a flat cost arraignment of \$15,000 per town.

Hi Dan,

I have cc'd Tim Carroll on this email so that possibly he may help you with this.

I have had very bad luck in accessing recordings from ZOOM.

Tim, could you help with this? Thanks!

Best,

Jennifer

Hi Jen

Any chance there's a link (or Invite to a DROPBOX) to the Zoom session, where I could rewatch some of the remarks made by those in attendance at the meeting? I took notes, but would like another view, if possible.

Thanks

Dan

Thank you, Dan and Jim, for a very informative presentation!

I am wondering if you may be able to send to me the Powerpoint that you presented at the meeting and a pdf of the letter to homeowners? These materials will be helpful to the Board members when they have a chance to take a second look at the concept.

Thanks again!

Jennifer

Subject: Bike / Ped demand Up Island

Hi Jen

Thanks again for making time for Jim and I to present at this past Monday's Planning Board meeting. I shared some numbers later in the conversation of bike/ped snapshot counts along North Road. I wanted to round those out with a more formal 1 hour survey along Middle Road this summer, in hopes you could pass these figures along to your Board members. More extensive counts up ahead will be valuable in better justifying bike/ped demand, but these two counts below are revealing nonetheless:

Date: Saturday, September 5th 10:30-11:30 AM (Labor Day weekend) – **19 cyclists / 5 pedestrians**
Site: Tea Lane Farm

Date: Thursday, August 20th, 2020 5:20-5:32 PM – **14 cyclists / 3 pedestrians**
Site: full car ride along North Rd (State Rd intersection to Basin Rd)

Thank you Jen; we will keep you posted on progress to conceptualize a more tangible proposal that also seeks to address some of the crown, canopy, and screening concerns raised at Monday's meeting. Ultimately, we seek for our island roads to reflect

the many values of our community – and will work hard to ensure they coexist whenever possible.

Dan
