

12/06/2022

I had a zoom meeting tonight and was asked to firm up the maximum number of guests we are expecting to attend so the board can review my request for permission to have our wedding ceremony on Lucy Vincent Beach on June 10th 2023.

Our original count was around 75 guests max. All family and close friends. We have reviewed our list and as was mentioned at the meeting we can narrow down to 40 guest attending. I feel a more intimate ceremony is an adjustment I'm happy to make if it means we can get married at my favorite spot on the island.

Please let me know if there is a certain amount of parking spots that are the point of concern. I am happy to ask guests to carpool as much as possible.

I'd like to say again that what I am requesting permission for is a short ceremony exchanging vows and only expect it to last about half an hour, followed by photographs with family. We are not fancy people, we are not rich people. Weddings in general are so expensive these days and especially on MV. We are average, hardworking islanders hoping to tie the knot in a way we can afford, in a place we love. Our home.

I hope the board finds my request as one they can approve. This would help make my dream island wedding come true.

Thank you for your time and consideration.

Nichole & Jared
