

What is the District Local Technical Assistance Program?

The District Local Technical Assistance (DLTA) Program is funded annually by the Commonwealth of Massachusetts to help municipalities with sustainable development and to encourage communities to form partnerships to achieve planning and development goals consistent with state and regional priorities.

State funding is allocated to each of the state's 13 regional planning agencies, including the MV Commission, to accomplish these technical assistance projects.

Please see MGL Chapter 29, §2XXX District Local Technical Assistance Fund for more information:
