Re: Cultural Council Funding

Hello all,

The Board of Selectmen of West Tisbury unanimously voted to support the request for an additional \$500 for the MV Cultural Council. This island-wide organization is supported in large part by the State of Massachusetts, with a small but important Island contribution. Annually they have far more applications for funding than they can support. A small increase in the amount given by each town will serve to boost the important work this organization does. We urge you to consider honoring this request.

Thank you.
