Subject: Re: Duncan Caldwell's analysis

Ms. Regen,

The Committee has received the Epsilon report at the end of last week and it is posted on the website.

The Committee had no knowledge of Mr. Caldwell's investigation nor his brief until I received a copy which was addressed to a number of individuals whom I assume are property owners. I am not aware of the distribution of the investigation.

The Committee received the copy of his investigation and will consider it along with the multitude of submitted information it has received. All of this will be part of the Committee's deliberations.

Thank you for your continued interest.

Thank you for such a quick response! Is it then correct to assume that the Epsilon group reads and keeps current with the website postings?

Best,

Sue

Ms. Regen, Thank you for your note.

The Duncan Caldwell letter, addressed to a number of property owners and upon which the committee was copied, was posted this morning on the Town Committee website under correspondence.

Best -

Dear Jim,

I understand that you and the Squibnocket Committee have received an analysis of the SFHA and FOS proposals from Duncan Caldwell. I know that the *Vineyard Gazette* and others have also received this analysis. I am wondering if this report will be shared with the Epsilon group who have been engaged by the committee? I imagine that there is information in it that might be helpful to their deliberations.

Thank you for your continued work for the town.

Best wishes,

Sue Regen
