Subject: Re: Town Committee on Squibnocket

Ms Jeffers -

The Committee has received the Epsilon and USGS reports at the end of last week and they are posted on the website.

We also received your Thanksgiving rebuttal/memorandum and will continue to consider it along with the multitude of submitted information we have received. All of this will be part of the Committee's deliberations. I can assure you that the committee will deal appropriately with any open questions from its consultants.

We do not have firm dates for a Special Town Meeting as of yet but will be trying to firm that up this week.

Thank you for your continued interest.

Dear Jim:

I was very interested to read the USGS report posted on your website and I wanted to encourage you to send our recent document regarding the Haley & Aldrich appraisal of our proposal as well as the map delineating the relocated road, which you have posted on your website to Epsilon Associates for their

evaluation. There are several open questions in the USGS report that I believe we can answer but I assume that you would prefer that we wait for the Epsilon evaluation.

Thank you and your committee for all of the hard work you have put into this project.

Do you have the date(s) for the open town meeting(s) established?

Sincerely,
Wendy Jeffers
